Summary

Current Data Science student at Oregon State University seeking the role of Environmental Data Analyst. Results-driven, with extensive experience in metrology, data-focused, excelling in technology-related roles and quality assurance. Proven track record in optimizing processes and building databases, demonstrating strong project management abilities to enhance efficiency and ensure compliance with industry standards.

Education

Associate of Applied Science
Ivy Tech North Central – South Bend, IN
Graphic Design

Relevant Coursework:
VIS 101 Fundamentals of Design
VIS 110 Web Design 1
VIS 115 Computer Graphics
ART 112 Electronic Layout
ART 114 Graphic Design
ART 115 Typography
ART 116 Electronic Illustration
ART 202 Special Projects 1
VISC 214 Advanced Electronic Layout
VISC 217 Graphic Design 2
VISC 219 Graphic Design 3

Bachelor of Applied Science
Oregon State University – Ecampus
Data Science
Expected Graduation – 2029
G.P.A. – 3.55

Relevant Coursework:
+CAREERS IN DATA SCIENCE (DS_101_400_F2026)

Experience

Calibration Technician II
Refresco Beverages - Paw Paw, MI
August 2024 to present

- Encompass the planning, implementation, and control of the efficient, effective flow for instrument calibration and maintenance.
- Develop meticulous profiles for new equipment and instrumentation under strict deadlines to streamline production start-up.
- Maintain over 1000 calibration program related documents and up-to date records for all calibration activities through a Calibration Management System for five separate departments.
- Administer ISO compliance, strict document control, and data integrity.

Calibration Technician/Quality Lead for Medtronic/Quality Control
Masterbilt Precision Machining - South Bend, IN
February 2023 to April 2024

- Orchestrated ground-up database creation to maintain metrological information and internal/external calibration.
- Executed ISO 13485 certification through outsourced medical devices to WuXi AppTec and obtained monthly results.
- Implemented meticulous quality control and quality assurance for aerospace, military, aeronautics and space, and medical fields.

CMM Technician/Programming
Springboard Manufacturing – South Bend, IN
May 2021 to February 2023

- Wrote CMM programs for part layout verification through precise measurement sequences to produce reliable coordinate data.
- Administered first-article, in-process, and final dimensional checks on molded components meeting strict industry standards.
- Trained, managed, and supervised employees in CMM operations and other laboratory responsibilities.
- Tracked and evaluated inspection results with respect to applicable codes, standards and specifications.

Skills

PC-DMIS, SAP, Lotus, Metrology360, programming, data analysis, data validation, data integrity, error tracking, quality assurance, root-cause analysis, SOP, GMP, regulatory compliance, problem solving & critical thinking.
